

PULSE YOUTH MINISTRIES

TEXT ALERTS

Text message alerts have been implemented in order to immediately provide time-sensitive information to teens and/or parents about upcoming Pulse sponsored activities. This service is not used excessively and is not abused; messages are sent out only if there is a need to relay important information to the recipients. This includes, but is not limited to: time changes, event status (rescheduling, cancelling, etc.), location changes, cost ,and other essential information.

To receive Pulse text message alerts, follow these instructions:

- 1. Text "@pulseym" to "81010" (exclude the quotation marks)**
- 2. After receiving the first text message from this service, you will be asked to reply with your name. Please respond with only your first & last name.**
- 3. Once you respond – that's it! You are all set!**

If you ever wish to stop receiving these text alerts, reply to any Pulse text alert that you have received saying "STOP". You will be removed immediately from the recipient database.

Message and data rates may apply
